

BURLAP BAG

ECO-FRIENDLY

The eco-friendly **Burlap Bag** is a perfect aggregate bag for more environmentally sensitive projects. The bag itself is made from naturally grown jute fibers and is 100% biodegradable. These naturally tough, woven bags can be used for a variety of sediment and erosion control purposes and can be filled with any of our standard aggregate choices - " pea gravel, 5/16" bird's eye gravel, or sand.

PRIMARY USES

- Inlet protection
- Check dams
- Weighing applications for temporary signage, drain filters, tarps, plastic sheeting, etc.
- Slope interruption
- Jobsite perimeter control
- Stockpile perimeter control
- Military fortification
- Retaining Wall
- Stream and channel protection
- Fire restoration

BENEFITS

- Biodegradable
- Sewn shut to prevent spill out
- Made from naturally tough materials
