

ELIMA DRIP WRAP

The Elima Drip Wrap is a small, portable containment system designed to capture oil from leaking hose connections and couplings. Using the Elima Drip Wrap not only helps maintain a clean environment, but keeps workers safe from toxins and potential injuries. The Elima Drip Wrap is made from heavy duty vinyl materials that are designed to withstand harsh environments and day to day handling.

BENEFITS

- Velcro enclosure system keeps the Elima Drip Wrap securely in place around the fitting
- Compact
- Outer shell is tear resistant
- Absorbent pad is replaceable
- Outer shell acts as a second containment layer
